

*It's not about the
destination or the
journey*

It's about the
COMPANY
you choose in this journey

Pentagraph 
YOUR INVESTMENT PARTNERS

From the Chairman's Desk

RAHUL MONE
CHAIRMAN

On behalf of Pentagraph, we welcome you to our *Wealth & Financial Planning Boutique*.

We recognise that a great relationship is founded on the solid grounds of trust. And to start building such an important asset as trust, it is important to first understand the company that you are going to have in your life-long journey.

First, we are going to walk you through the core philosophy which acts as our compass, and guides us in every decision that we take, on behalf of our clients and for us.

Next, we will be taking a right turn to understand our services and the value that it would create for you.

We are confident that you would find this walk-through helpful and promising so that we all can take our first step towards a long-lasting relationship. We value your time and therefore, we have kept this brochure intentionally simple and to the point. But, we are always available to take you through our detailed services presentation in person.

Thank you!

For everything else, there's

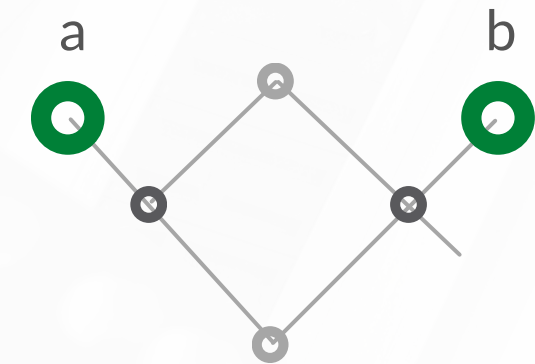

Pentagraph

Welcome to Pentagraph

A CNC Pantograph used
for engraving purposes

The name **Pentagraph** is inspired from a mechanical instrument **PANTOGRAPH**

In a Pantograph, a small image created using its one arm (a) causes a movement of its other arm (b) creating a similar larger image on the other side.

Pentagraph is a metaphor for being instrumental in creating a larger impact for you, by implementing simple, scientific yet sophisticated principles of Finance, Wealth & Life.
